Scientist, Keynote speaker

Inzetbaarheid Keynote speaker

## Thematiek

How to achieve the impossible, Be a balloonist in your business, Failure and success, Coping with crisis situations, Hypnosis and self-hypnosis

### Talen

EN, F

# Biografie

Bertrand Piccard is the initiator and visionary behind Solar Impulse, the very first airplane capable of flying

perpetually without fuel. It is in his DNA to go beyond the obvious and achieve the impossible. As part of a

legendary dynasty of explorers and scientists who conquered the heights and depths of our planet, he made

history by accomplishing two firsts in aviation, circumnavigating the globe in a solar-powered airplane and

before that non stop in a balloon. The ocean depths and the stratosphere attracted his father and grandfather;

the challenges of our time fascinate him. With his dual identities as medical doctor and explorer, Bertrand has

become an influential voice as a forward thinking leader for progress and sustainability and a renowned

inspirational speaker. Following his pioneering spirit in favor of the cause of renewable energies and clean

technologies, he has now set off to select and label 1000 solutions that protect the environment in a profitable

way and will then embark on a third round-theworld journey to deliver those solutions to decision-makers,

encouraging them to adopt more ambitious environmental targets and energy policies.
