## Biografie

After a career with several (international) companies, including AXA Netherlands, Winkhaus Netherlands and Reinaerd Deuren, Erwin Wiggers discovered his real talent and passion and now helps people to get much more out of themselves. He has radically changed his circumstances, follows his heart and has turned presentations, writing and coaching into his profession. He has only one goal: to help individuals and organizations to do what they are made for. In a positive and effective way. Full of dedication and fun. So that

they can continue to make a difference in the future.

To reinforce his mission “Do what you are good at and what you enjoy, surrounded by the right people”, Erwin set up the Talent x Inner Motivation x Circumstances = Success™ action plan, where science and practice meet intensively. . So that you can bring focus to your life and then quickly achieve success.

"I can keep using the best years of my life to make even more profit for private equity funds, or I can really contribute and let people do what they are made for full-time."
