Biografie

Jos Dirx is an international, award-winning keynote speaker, bestselling author, actress, and world traveller, with visits to 99 countries. She is the founder of Beenova AI, an AI learning platform. Jos is passionate about education, technology, diversity and world change.

Jos is CEO and co-founder Beenova AI, Faculty at Singularity University, an international public speaker, author and world-traveller. Originally from The Netherlands, Jos was born in Rio de Janeiro, Brazil and has since lived in twelve

countries across the world, having visited near 100. Jos is passionate technology, stories and solutions that change the world: at Beenova AI, her team builds platforms that leverage AI for future focused learning. As the author of two books, founder of a not-for-profit organization and lover of the arts, Jos finds power in the intersection of creativity, technology and education to build disruptive products.
