## Biografie

Marco Tempest is a frequent keynote speaker at tech conferences around the world, a Directors Fellow at the MIT Media Lab and a creative consultant at the NASA Jet Propulsion Laboratory. Marco is executive director of the NYC MagicLab, a science consortium exploring illusion and digital technology. Applications include media, marketing, entertainment and the prototyping of future technologies via immersive experiences. Marco is deeply embedded in the tech industry and has regular interactions with product teams in an advisory capacity or as consultant or developer for prototype consumer technologies.
