Biografie

Ramy Nassar is an international speaker, author, and thought leader in the domains of AI and Strategic Foresight, helping the world's leading organizations Navigate What's Next. As an author, futurist, and the former Head of Innovation for Mattel, Ramy is trusted by the world's leading organizations for presentations & workshops that help teams navigate the AI & emerging technology landscape. He engages audiences to uncover opportunities for technology to drive strategic growth and introduces his AI Impact Framework.

Short Bio/ introduction Ramy Nassar

Ramy Nassar is an international speaker, author, and thought leader in AI and Strategic Foresight, helping the world's leading organizations Navigate What's Next. As the

former Head of Innovation for Mattel and author of the AI Product Design Handbook, he has established himself at the intersection of technology, futurism, and business strategy, providing organizations with actionable guidance on leveraging AI to drive strategic objectives. His engaging presentations and workshops demystify complex technology trends, making them accessible and relevant to diverse audiences globally.

With over 25 years of experience working with more than 250 leading organizations including Apple, TD Bank, TELUS, and the Federal Government of Canada, Ramy delivers dynamic, interactive programs that go beyond traditional presentations. A dedicated educator who teaches at universities around the world, he brings a unique global perspective to his work, making him a sought-after speaker for conferences, workshops, and corporate events where he helps bridge the gap between AI's potential and practical implementation.

Longer bio Ramy Nassar

Ramy Nassar is an international speaker, author, and thought leader in the domains of AI and Strategic Foresight, helping the world's leading organizations Navigate What's Next.

As the former Head of Innovation for Mattel and author of the AI Product Design Handbook, Ramy has established himself as a pivotal leader at the crossroads of technology, futurism, and business strategy, where his engaging keynotes and workshops demystify complex technology trends for diverse audiences.

He has spent 25+ years working with leaders at over 250 leading organizations at the frontline of innovation and disruption - including TD Bank, Apple, TELUS, Verizon, New Balance, Federal Government of Canada, and countless industry & professional associations. Through his work, organizations gain actionable insights on leveraging AI to drive strategic objectives and create measurable business value.

Deeply committed to education, Ramy teaches at prestigious institutions including McMaster

University, Toronto Metropolitan University, and the Norwegian University of Science and Technology, where his academic roles reflect his global perspective and understanding of AI's impact across industries. Fluent in English, French, and German, his dynamic and interactive delivery goes beyond traditional presentations, making him a sought-after speaker for conferences, workshops, and corporate events worldwide.
