Biografie

Tey's story is an unlikely one. Labeled as The Invisible Man at the age of 5 to becoming one literally in the Netherlands 25 years later. He is an early adopter of Bitcoin, Pioneering the use of blockchain to break financial and identity barriers. He started a tech4good company that helps others like him. His journey ultimately led him to the realisation of his life's mission: turning invisible people into invincible ones. Through his work as a CEO, writer, speaker, and a holder of MSc in Digital Currencies and Blockchain Technology he is determined to become a billionaire.

Not in terms of money but in positively touching the lives of billions of people. Tey's story is a passionate account of perseverance and determination that will leave you on the edge of your seat.

lives of thousands around
him.
