Biografie

Tedx Speaker Camiel Jansen is a well-known Composer who writes Music for International Orchestras, Festivals and Films. As a speaker he takes you into his world of music and gives you practical tools how ideas come to life and how you can train yourself to be more creative.

Camiel Jansen is a composer, entrepreneur and presenter. As a composer he makes connections between a social theme and his music. For example, he composed 'the Supplementary Scandal' based on samples from Dutch

politicians, and wrote a mini-opera about man's upcoming journey to Mars. He sees that curiosity and creativity is the ultimate way to inspire and convince, and believes that every person benefits from consciously changing thought processes.

You can book Camiel Jansen as a keynote speaker through [Assemblee Speakers](#). In addition, Camiel Jansen also occasionally leads an event as a moderator.
