Biografie

Jan Jonker is professor at the Nijmegen School of Management (NSM) of the Radboud University Nijmegen [RU - Holland]. His research concerns corporate responsibility in relation to new business concepts and business strategy. So far he has written twenty-seven books and published numerous articles. He is a highly qualified international lecturer and presenter. He is a visiting professor at institutions such as the Business Schools of Toulouse, Kaunas and Barcelona. Besides his research, teaching and academic entrepreneurial activities he is also a business consultant. In 2010 he was appointed

one of Holland's Top 100 most influential 'green' people.

Specialismen: Sustainable Development Strategy, New Business Models and Hybrid Banking: research, consulting, academic and professional education - all this in four languages and across Europe (mainly).
