Biografie

Jan Lammers is one of the most versatile Dutch racing drivers. He is Sporting Director for The FI Heineken Dutch Grand Prix. Jan Lammers was a succesful Formula 1 driver.

He is besides Sporting Director FI Analyst for the Dutch NOS Radio & TV.

General experience gathered from racing cars all over the World. Having enjoyed racing from club level to Formula 1 and back still going strong for whatever opportunity crosses my path. Nascar is probably the only racing car/ class that I haven't done yet but other than that if it had wheels, I drove it. Currently involved in racing occasionally in GT Cars in Europe but open to any attractive offer. Still fit and ready to go.

Off the race track available for consultancy on all levels of sponsoring, Racing drivers career advise, public speeches, car running and preparation and tailor-made master class driver training. All based on the philosophy:"You can teach best what you need to learn yourself" I still have plenty to learn and plenty to teach.
