## Biografie

Paul Smit is a Philosopher and Comedian and has 20+ years of experience as a Keynote speaker. In his keynotes he combines humor and content and focuses on themes such as Change, Collaboration, Happiness at Work, Innovation and Artificial Intelligence [AI]. He gives interactive and humorous presentations about human behavior and the brain and talks about influence, change, innovation and collaboration. Paul Smit graduated with an essay

on 'the evolution of human consciousness'. He wrote 14 books on philosophy, psychology and neuroscience. Paul works together with neuroscientist Ayca Szapora on supporting neuroscience research at Leiden University and Dresden.
