### Biografie

Sally Forrest is a 360 Entrepreneur having achieved massive business success while accumulating a lifelong experience of holistic sciences. She coaches businesses, entrepreneurs and start-ups to create success and scale it. Sally is also a global speaker, a bestselling author and a TEDx featured expert. Sally is an MBA with extensive Business experience, and is also a qualified pharmacist. She is the Managing Director of SoulCentre® and SoulKids®, award-winning brands based in Singapore.

For over 17 years, Sally excelled in senior corporate positions in the UK and internationally, before choosing an alternate direction in her life. She left her corporate career and tirelessly worked to help open an Orphanage in Thailand. Exposure to different

cultures and philosophies ignited a deep quest for answers in mind-body healing, which prompted Sally to embark on an international journey to meet experts in different life-disciplines.

For the next 10 years Sally travelled the world learning from world renowned experts, and mastered many complimentary Mind-Body disciplines of healing and happiness.

Her quest to understand the mysteries of the mind eventually led her to meet a teacher of Wisdom, Vikas Malkani, and together they decided to bring these life-changing techniques to the world via SoulCentre in Singapore.

Sally is especially passionate about SoulKids, the award-winning training program she co-founded, that coaches children on life-skills essential for success and happiness. Her goal is to empower children to grow into responsible, confident and successful adults.

360 Entrepreneur™ is Sally's training program to support and scale entrepreneurs starting out on their journey to success. Sally creates a blueprint of success for each client based on their skill sets and her vast experience of running successful businesses. Her proprietary program The Life Success Method™ is ideal for clients who want clarity, focus and success in their life and business.
